

Supreme Court

Re: Proposed Court Rule No. 2003-47

I am writing this letter as a concerned citizen. This unconstitutional political attempt to take away our rights is an injustice crime. I do plan to fight this unlawful attempt. The United States Constitution makes it clear that judges are not to make the law but rather interpret the law. Why is the Michigan Supreme Court even considering taking steps that would effectively change the law by denying Michigan asbestos disease victims their right to a jury trial? This is my statement and should be heard.

Thank you,
